INDEPENDENT AUDITORS' REPORT

Honorable Glen T. Edwards Red River Parish Sheriff P.O. Box 375 Coushatta, Louisiana 71019

We have audited the accompanying financial statements of the governmental activities and the aggregate remaining fund information of the Red River Parish Sheriff, Coushatta, Louisiana, as of and for the year ended June 30, 2012, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Red River Parish Sheriff's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the aggregate remaining fund information of the Red River Parish Sheriff as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated November 26, 2012, on our consideration of the Red River Parish Sheriff's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information on pages 4 through 8 and 28, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Page #2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Red River Parish Sheriff's financial statements as a whole. The accompanying information identified in the table of contents as Other Supplementary Information and Schedule of Ad Valorem Taxes Assessed and Uncollected is presented for the purposes of additional analysis and is not a required part of the financial statements. The Other Supplementary Information and Schedule of Ad Valorem Taxes Assessed and Uncollected are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The financial information for the year ended June 30, 2011, which is included for comparative purposes was taken from the financial report for that year in which we expressed an unqualified opinion dated December 20, 2011, on the basic financial statements of the Red River Parish Sheriff.

Hines, Sheffield & Squyres Natchitoches, Louisiana November 26, 2012

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Management Discussion and Analysis

Basic Financial Statements

Required Supplementary Information (Other than MD&A)

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

Basic Financial Statements

This annual report consist of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 9 and 10) provide information about the activities of the Red River Parish Sheriff as a whole and present a longer-term view of the Sheriff's finances. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets and the Statement of Activities report the Sheriff's net assets and changes in them. You can think of the Sheriff's net assets, the difference between assets and liabilities, as one way to measure the Sheriff's financial health, or financial position. Over time, increases or decreases in the Sheriff's net assets are one indicator of whether its financial health is improving or deteriorating.

Fund financial statements start on page 11. All of the Sheriff's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the Sheriff's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Sheriff's activities as well as what remains for future spending.

FINANCIAL ANALYSIS OF THE ENTITY

Net Change in Fund Balances-Total Governmental Funds (Exhibit E)

\$ 3,632,506

The change in Net Assets reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$202,781) exceeds capital outlay (\$139,755) in the current period.

(63,026)

Some expenses reported in the statement of activities, such as other post employment benefits, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The sheriff also administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, serving subpoenas.

As the chief law enforcement officer of the parish, the sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs, anti-drug abuse programs, et cetera. Additionally, the sheriff, when requested, provides assistance to other law enforcement agencies within the parish.

As the ex-officio tax collector of the parish, the sheriff is responsible for the collection and distribution of ad valorem property taxes, parish occupational licenses, state revenue sharing funds, sportsmen licenses, and fines, costs, and bond forfeitures imposed by the district court.

A. Basis of Presentation

The accompanying financial statements of the Red River Parish Sheriff have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, issued in June 1999.

B. Reporting Entity

GASB Statement 14 establishes the criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under these provisions, the Red River Parish Sheriff is considered a primary government, since the Sheriff is an independently elected parish official and is not fiscally dependent on any other governmental entity. The primary government is required to consider all entities for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The accompanying financial statements present information only on the funds that comprise the Red River Parish Sheriff, the primary government.

C. Fund Accounting

The basic financial statements include both government-wide financial statements (based on the Sheriff as a whole) and fund financial statements. In the government-wide Statement of Net Assets, the activities are presented on a consolidated basis and are reflected on a full accrual economic resources basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given function is offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include a) fees, charges, and commissions for services provide by the Sheriff, and b) grants and contributions

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basic Financial Statements (Continued)

that are restricted to meeting the operational or capital requirements of the Sheriff. Taxes and other items that are not included among program revenues and do not a direct relationship with program expenses are reported as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

D. Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured and basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the time of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenues, expenses, gains, losses, assets and liabilities resulting from nonchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. revenues are recognized when measurable and available. Revenues are recognized as soon as they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. Debt service expenditures and expenditures related to compensated absences and claims and judgements are recorded only when payment is due. Taxes, fees, charges and commissions for services, grants and similar items that all eligibility requirements have been met, and interest and investment income are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period.

A reconciliation with brief explanations to better identify the differences between the government - wide statements and the statements for governmental funds is presented since they are prepared using different approaches.

The Sheriff uses the following governmental fund:

The General Fund is the primary operating fund of the sheriff and it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to sheriff policy. The Sheriff's primary sources of revenues are ad valorem taxes, state revenue sharing, intergovernmental revenues, and fees, charges and commissions for services. General operating expenditures are paid from this fund.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus/Basis of Accounting (Continued)

The Sheriff uses the following fiduciary funds:

Fiduciary funds reporting focuses on net assets and changes in net assets. The only funds accounted for in this category by the Sheriff are agency funds. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Consequently, the agency funds have no measurement focus, but use the modified accrual basis of accounting. The agency funds (Tax Collector Fund, Fines, Bonds and Costs Fund, and Civil Fund) are used as depositories for ad valorem taxes, civil suits, cash bonds, taxes and fees. Disbursements from the funds are made to various parish agencies, litigants in suits, and others, in the manner prescribed by law.

Private-sector standards of accounting and financial reporting issued prior to November 30, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government does not have any business-type activities or enterprise funds and has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include a) fees, charges and commissions for services, b) operating grants and contributions, and c) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

E. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The Red River Parish Sheriff prepares and adopts a budget each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the modified accrual basis of accounting. The Sheriff amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

F. Cash and Cash Equivalents

Cash and cash equivalents are considered to be cash on hand, demand deposits, interest bearing demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

G. Investments

Investments are limited by Louisiana Revised Statute and the sheriff's investment policy. Under state law, the Sheriff may invest in obligations of the U. S. Treasury and U. S. Agencies, or certificates of deposit. Investments are carried at fair market value as of the balance sheet date.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

I. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At June 30, 2012, \$0 were considered uncollectible.

J. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the Red River Parish Sheriff are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 40 years for buildings and building improvements and 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

K. Compensated Absences

Full-time employees that have been employed one year earn one week of vacation and two weeks of sick leave and employees that have been employed two or more years earn two weeks of vacation and two weeks of sick leave per year. Vacation leave does not carryover or accumulate from one fiscal year to the next, and there are no vesting privileges. Sick leave does carryover from one fiscal year to the next and can be accumulated up to a maximum of four week; however, there are no vesting privileges. Therefore no liability for compensated absences has been recorded in the accompanying financial statements.

L. Restricted Net Assets

In the government-wide statements, equity is classified as net assets and displayed in three components:

- Investment in capital assets, net of related debt consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributed to the acquisition, construction, or improvement of those assets.
- Restricted net assets consists of net assets with constraints placed on the use either by a) external groups such
 as creditors, grantors, contributors, or laws or regulations of other governments; or b) law through constitutional
 provisions or enabling legislation.
- Unrestricted net assets all other net assets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Equity

In the fund financial statements, governmental fund equity is classified as fund balance and displayed in five components:

- 1. Nonspendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- 2. Restricted amounts constrained to specific purposes by either a) creditors, grantors, contributors, or the laws or regulations of other governments, or b) constitutional provisions or enabling legislation.
- 3. Committed amounts constrained to specific purposes by the governmental entity at its highest level of decision-making authority (Sheriff). These amounts can not be used for any other purposes unless the government takes the same highest level action to remove or change the constraint.
- 4. Assigned amounts that do not meet the criteria to be classified as restricted or committed that are intended to be used for specific purposes as established by the Sheriff or their designee.
- 5. Unassigned all other spendable amounts.

The Sheriff establishes (and modifies or rescinds) fund balance commitments and assignments by passage of an ordinance or resolution.

The Red River Parish Sheriff typically uses restricted fund balances first, followed by committed assigned and unassigned funds when an expenditure is incurred for purposes for which amounts in any of these fund balance classifications could be used.

N. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the sheriff, which are either unusual in nature or infrequent in occurrence.

O. Sales Taxes

The Red River Parish Sheriff collects a one percent parish-wide sales and use tax with the net proceeds, after deducting costs of collection and administration, dedicated and used for salaries and benefits of deputies and acquiring, maintaining and operating of sheriff's vehicles and equipment.

P. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 LEVIED TAXES

The Red River Parish Sheriff levies taxes on real and business personal property located within its boundaries. Ad valorem taxes are assessed on a calendar year basis, levied and become due on November 15 of each year and become an enforceable lien on property as of December 31 of each year. The following is a summary of authorized and levied ad valorem taxes as of June 30, 2012:

	Authorized Millage	Levied Millage	Expiration Date
Law enforcement	13.71	13.71	Statutory

NOTE 3 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

Demand deposits

For reporting purposes, deposits with financial institutions includes savings, demand deposits, time deposits, and certificates of deposit. Under state law the Red River Parish Sheriff may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the Sheriff may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts mutually acceptable to both parties. At June 30, 2012, the Red River Parish Sheriff had bank deposits per books of \$10,870,668, as follows:

NOTE 7 PENSION PLAN

Substantially all employees of the sheriff's office are members of the Sheriff's Pension and Relief Fund ("System"), a multiple-employer, cost-sharing public employee retirement system (PERS). The System is a statewide public retirement system for the benefit of sheriffs and their staffs, which is administered and controlled by a separate board of trustees. Contributions of participating sheriffs, together with shared local and state revenues, are pooled within the System to fund accrued benefits, with employer/employee contribution rates approved by the Louisiana Legislature.

All sheriffs and all deputies who are found to be physically fit, who earn at least \$400 per month and who are between the ages of 18 and 50 at the time of original employment are required to participate in the system. Employees are eligible to retire at or after age 55 with at least 12 years of credited service and receive a benefit, payable monthly for life, equal to a percentage of their average final salary for each year of credited service. The percentage factor to be used for each year of service is 2.5 percent if total service is at least 12 but less than 15 years, 2.75 percent if total service is at least 15 but less than 20 years, and 3 percent if total service is at least 20 years. In any case, the retirement benefit cannot exceed 100 percent of the final average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service, and who do not withdraw their employee contributions, may retire at or after age 55 and receive the benefits accrued to their date of termination. Employees who terminate with at least 20 years of credited service are also eligible to elect early benefits between the ages of 50 and 55 with reduced benefits equal to the actuarial equivalent of the benefit to which they would otherwise be entitled at age 55. The system also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Sheriffs Pension & Relief Fund, Monroe, Louisiana, 71210-3163 or by calling (318) 362-3188.

Contributions to the system include one-half of 1 percent of the taxes shown to be collectible by the tax rolls of each parish and a direct appropriation from the State of Louisiana. State statute required covered employees to contribute 10.00% of their salary to the system and required an employer contribution equal to 12.50% of each covered employee's salary. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Red River Parish Sheriff's contributions to the System for the years ending June 30, 2012, 2011 and 2010 were \$505,856, \$300,196 and \$181,297, respectively, equal to the required contribution for each year.

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS

The Red River Parish Sheriff provides certain continuing health care and life insurance benefits for its retired employees. The employees become eligible for these benefits upon actual retirement. These benefits are determined based on the employees age and length of service. The plan is an agent multiple-employer defined benefit health care plan administered by the Louisiana Sheriffs' Association. The plan does not issue a publicly available financial report.

Employees do not contribute to their post employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents. The Red River Parish Sheriff recognizes the cost of providing post employment medical and life benefits as an expense when the benefit premiums are due. The benefits are financed on a pay-as-you-go basis with the Red River Parish Sheriff contributing \$42,134 for retirees in 2012.

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The Sheriff's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The ARC is the sum of the Normal Cost plus the contribution to amortize the Actuarial Accrued Liability (AAL). A level dollar, closed amortization period of 30 years (the maximum amortization period allowed by GASB 43/45) has been used for the post employment benefits. The ARC for the fiscal year 2012 is \$158,423 as set forth below:

Normal cost	\$ 44,652
30-year UAL amortization amount	113,771
Interest on the above	 0
Annual required contribution (ARC)	\$ 158,423

The following table presents the Sheriff's OPEB Obligation for the year ended June 30, 2012:

Beginning net OPEB obligation, July 1, 2011	\$ 194,474
Annual required contribution	158,423
Interest on net OPEB obligation	
OPEB cost	158,423
Contributions made (retiree cost)	(42,134
Change in net OPEB obligation	116,289
Ending net OPEB obligation, June 30, 2012	\$ 310,763

The Red River Parish Sheriff's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012, 2011 and 2010 are as follows:

			Percentage of		
Fiscal Year	A	nnual OPEB	Annual OPEB		Net OPEB
<u>Ended</u>		Cost	Cost Contributed	_	Obligation
06/30/2010	\$	132,890	26.09%	\$	98,214
06/30/2011	\$	132,890	27.56%	\$	194,474
06/30/2012	\$	158,423	26.60%	\$	310,763

The funded status of the plan as of June 30, 2012, was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ 1,957,260 0
Unfunded actuarial accrued liability (UAAL)	\$ 1,957,260
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (annual payroll of active employee covered by the plan) UAAL as a percentage of covered payroll	2,248,254 87.06%

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce short-term volatility is actuarial accrued liabilities consistent with the long-term perspective of the calculations.

The Red River Parish Sheriff's office uses the Alternative Measurement Method to calculated the cost of the post employment benefits plan. The assumptions included a 5.0% investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 9.0% scaling down to ultimate rates of 4.7% per year. The actuarial assumptions also include a payroll growth of 1.0% per annum. The Sheriff's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis. The amortization period used by the Sheriff's office was 30 years.

NOTE 9 TAXES PAID UNDER PROTEST

Louisiana Revised Statute 47:1576 provides that taxpayers, at the time of payment of all taxes due, may give notice to the tax collector of their intention to file suit for recovery of all or a portion of the total taxes paid. Upon receipt of a notice, the amount paid shall be segregated and held by the tax collector for a period of thirty days. If a suit is filed within 30 days, the segregated funds shall be held pending outcome of the suit. If the taxpayer prevails, the Tax Collector shall refund the amount due with interest from the date the funds were received by the Tax Collector. There were \$0 in ad valorem taxes paid under protest at June 30, 2012.

NOTE 10 LEASES

The Red River Parish Sheriff was not obligated under any capital or operating lease agreements at June 30, 2012.

NOTE 11 LITIGATION

The Red River Parish Sheriff was not a defendant in any active lawsuits as of the close of business on June 30, 2012. However, there was one outstanding lawsuit that the courts have granted a motion for summary judgment in favor of the Sheriff that the plaintiff has not appealed. The lawsuit is being handled by the Sheriff's insurer and does not expect there to be any liability in this case.

NOTE 12 EXPENDITURES OF THE SHERIFF PAID BY THE PARISH POLICE JURY

The Red River Parish Police Jury provided the Red River Parish Sheriff with office space and paid the related utilities of that office space for the year ended June 30, 2012.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Glen T. Edwards Red River Parish Sheriff P. O. Box375 Coushatta, Louisiana 71019

We have audited the accompanying basic financial statements of the governmental activities and the aggregate remaining fund information of the Red River Parish Sheriff, Coushatta, Louisiana, as of and for the year ended June 30, 2012, and have issued our report dated November 26, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Red River Parish Sheriff is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Red River Parish Sheriff's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Red River Parish Sheriff's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Red River Parish Sheriff's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Red River Parish Sheriff's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under Government Auditing Standards. A description of the findings can be found at finding 2012-01 and 2012-02 of the accompanying Corrective Action Plan For Current Year Audit Findings, Schedule 5.

Honorable Glen T. Edwards Red River Parish Sheriff P. O. Box375 Coushatta, Louisiana 71019

We are writing this letter as a follow-up to our recent audit of the basic financial statements of the Red River Parish Sheriff, Coushatta, Louisiana, as of and for the year ended June 30, 2012. We offer the following observations and recommendations, which are intended to help improve record keeping procedures and general operations of the Red River Parish Sheriff and are intended to be constructive in nature:

1. Existing Conditions

At June 30, 2012, the bank deposit balances of the Red River Parish Sheriff exceeded federal deposit insurance corporation (FDIC) coverage. This resulted in bank deposits not being secured against loss because the depositing banks did not pledge sufficient securities at a third party custodian to cover the excess deposits.

LSA-RS 39:1225 requires that the amount of security maintained on bank deposits shall at all times be equal to one hundred percent of the amount of bank deposits except that portion of the deposits insured by the FDIC.

Recommended Action

We suggest the Red River Parish Sheriff's management review on a quarterly basis the amount of securities being pledged at each institution that deposits are maintained to ensure that proper security is being maintained over the funds as required by LSA-RS 39:1225.

Management's Response

The amount of securities being pledged to secure bank deposits will be reviewed quarterly with each financial institution.

Existing Conditions:

Actual revenues of the Red River Parish Sheriff were \$503,689 (6.20%) less than budgeted amounts in 2012.

LSA-R.S. 39:1310 requires the Red River Parish Sheriff to amend its budget whenever actual revenues and expenditures are projected to be less than or exceed budgeted amounts by more than five percent.

Recommended Action:

We suggest the Red River Parish Sheriff's adopted budget be closely monitored and amended whenever there has been a change in operations upon which the original adopted budget was developed. Care should be exercised to maintain actual revenues and expenditures within the five percent limit established by statute.

Management's Response:

The Red River Parish Sheriff's management will closely monitor its budget and make amendments to it as necessary to accurately reflect expected revenues and expenditures and to satisfy legal requirements.

These comments and recommendations are not all inclusive and are not intended to be critical of anyone. We would like to thank the Red River Parish Sheriff's management and staff for their courtesy and cooperation during our engagement. If you have any questions or concerns, please let us know.
